WORK EXPERIENCE

ProSyLab

Senior Systems Architecture Engineer

Provide advice on project costs, design concepts, or design changes. Recommend changes to improve computer or information systems. Document design specifications, installation instructions, and other system-related information. Verify stability, interoperability, portability, security, or scalability of system architecture. Test computer system operations to ensure proper functioning.

FROM FEB 2018, NOW (FT)

VDIS

Senior Embedded systems Engineer

Maintain, upgrade and modify embedded systems as needed. Work with Manager in developing technical specifications based on customer requirements. Analyze system technical issues and develop appropriate resolutions. Coordinate with design, development, testing and implementation teams to plan and complete assigned projects within deadlines. Participate in system design reviews and recommend improvements. Identify technical risks and challenges and propose action plans. Support in integrating modules to existing systems and perform integrating testing. Assist in preparing system design and architecture documents. Provide support in system testing and bug fixing activities. Assist Manager in determining project budget and timelines.

FROM OCT 2017, JAN 2018 (FT)

CIC

PAC Development Trainer

Responsible for training undergrad students to use the state of the art industrial NI PAC controllers in advanced motion planning and sensor array deployments in hazardous areas

FEB 2017 – APR 2017 (PT)

EgyCet

Instructor

Responsible for teaching “HIT” students a complete electronics professional diploma including digital, analog, and mixed electronics.

MAR 2015 – JUNE 2016 (PT)

ALPHA ELECTRONICS

Embedded Systems Architect

leading a technical team to design, analyse, implement, test, and support the company products. This team activities includes schematic, wiring, simulation, PCB layout, testing, and delivery of projects.

JUNE 2015 – MAR 2016 (PT)

ATOMIC ENERGY AUTHORITY

Intern

Co-developed “RADMON” project to monitor, record gamma radiation levels and provide various alarming levels.

SEPT 2011 – SEPT 2013 (PT)

EDUCATION

2017 – PRESENT

Master of Science

Computer Engineering
Cairo University

2017

Master of Engineering

Computer Engineering
Cairo University

2008 – 2013

Bachelor Computers Control Engineering

FIRST CLASS HONOURS

Computers Control Engineering Department
OHIE

COMPUTER SKILLS

PRODUCTIVITY	System design, UML, \LaTeX
SOFTWARE	Algorithm design, Web, GIS, DB, OS
HARDWARE	Automation, ICT, PCB

COMMUNICATION SKILLS

CONFERENCES	Oral presentation at ICCES 2017
LANGUAGES	Arabic, English

SKILLS

Goal Oriented

I believe in action over long-winded discussions. I listen to everyone's viewpoints and use my judgement to immediately act based on consensus to achieve goals quickly and efficiently.

Passionate

I have been interested in theoretical physics such as quantum mechanics and relativity from an early age. My education and research have cemented this interest into a passion. I greatly enjoy carrying out fundamental physics research with potential practical applications.

Hobbies

I'm interested in practicing running, rowing, reading, and classical guitar

HPC

BigDL, Spark, Hadoop, Cloud systems design, GPGPU

Protocols

ATM, USART, I2C, SPI, CAN, LIN, Profibus, ProfiNet, MODBUS RTU, OPC, USB, TCP, IP, PCI

Programming Techniques

Big-Data techniques, Enterprise techniques, Industrial techniques, Functional, RTOS and micro-services

JUNE 2010 – SEPTEMBER 2010 (FT)

DELTA SUGAR COMPANY

Intern

Trained to handle both modern industrial automation system, data acquisition systems and drivers.

JUNE 2003 – MAY 2005 (FT)

THE EGYPTIAN COMPANY FOR ELECTRICAL POWER TRANSMISSION

Intern

Trained to operate and maintain power transmission substations and different kinds of faults.

PROJECTS

GOPP	SPAAD
ENF-COMM	Web portal & mobile application
MOJ	ICT infra-structure assessment
ESA	Automating Agricultural Records Systems
HAIER	Refrigerator automation system
ALEX PETROLEUM	Oil treatment' waste refinement system
KEMPINSKI HOTEL	200 Locations adaptive brightness control
ELISION	ELEVATOR EMERGENCY BACKUP SYSTEM
EAEA	Nuclear plant remote logging, and alarming system
OHIE	Remote realtime image transfer

Programming Languages

C98, C99, ANSI C, C11, CUDA C, C++11, C++17, GoLang, Python, C#, JAVA SE, LabVIEW, LADDER, Structured text, Swift

Circuit design and printing

Altium designer, Mentor graphics expedition PCB, Circuits thermal simulation, EMC analysis

Meta-heuristics

Genetic Algorithms, Ant Colony, Bee colony, Bee hive, Gray wolf

Machine learning

Clustering, Classification, Regression

Technology

KERAS, Open CV, SKLearn, Theano, Torch, Tensor flow
